- To create successful projects with our products created by high technology in global standards

OUR VISION

Our vision is to become a leading industrialist in the natural stone sector by making our products value added brands with awareness towards environment and with social responsibilities

OUR VALUES

- Usage of resources effectively
- Susceptibility to the environment
- Focusing on customer needs and on success
- Sustainable success
- Prioritization of workers health and safety awareness
- Honesty
- Openness to new technologies and visionary thinking
- Cooperation and tolerance

OUR MARKET

Our Company divides the market into two, as block and cut to size products. Block material markets are listed as mainly, China, Italy, Spain, Taiwan, India, Russia, Indonesia, Korea etc.

Cut to size slabs market consists of great number of countries such as USA, Dubai, Saudi Arabia, Abu Dhabi, United Kingdom, Italy, Spain, China and Mexico, Qatar, Kuwait, Portugal, South Korea, Israel, Angola, Morocco, Germany, Russia, Indonesia, Malaysia, Azerbaijan etc. We export Stones to 42 countries, we attended to the important exhibitions as Naturelmar Mining taking place in the world and we continue to participate them and our sales team makes visits frequently for market research. Our aim is to create new markets to find the other available countries which could not have been reached and to realize marketing activities to add value to our company and also for boosting the economy of the country.

To be successful and sustainable success is very important for us.

OUR QUARRIES

Naturelmar has become an international exporting company specializing in the natural stones sector , in blocks, slabs and tiles production. Our company owns 19 marble quarries site registrations. We can list the products of these quarries as, limestone, beige marble, grey marble, White marble travertine, etc. The capacity of Antalya, Demre quarry has limestone blocks capacity of 12 000 -15 000 tons / month and Isparta beige marble quarry has block capacity of 3 000 tons/month. Our Company has planned to open three new quarries in the coming year, the production will be started in 2017. These quarries will produce, Elmalı beige, Mersin grey and Gaziantep White Stones. In addition, at Antalya- Demre Mining facility there are guest houses with a hotel concept for our colleagues, managers , technical team and workers to stay . This service is also available for our visitors coming either from abroad or from our country to the quarry and we provide their needs for a comfortable stay in our place.

OUR FACTORY

The factory is established next to the quarry close to the resource in Antalya, Demre for rapid and higher quality production. We focused to reach to the blocks of better quality immediately and to continue the production without any break.

Our factory is located in 12 000 m2 closed area with an annual production capacity of 2.250.000 m2 . All types of sizing can be done according to the demands of the customers. We can meet the orders of the customers on time because of the high capacity of the factory. In our facility besides the factory there are carpenter shops and storage areas. The packaging materials of the products that are manufactured are also produced at the facility and all the wooden material are processed and are prone to heat treatment in the local drying facilities.

OUR LOGISTICS

We, as Naturelmar Mining Company have shown care to integrate our work in mining business with our other working areas such as pharmaceuticals, construction. For this reason we have planned our logistics web in our own company and established it. We are transporting the material in the country with our own trucks. Our logistics team supports transportation both in the offices which are in the factory and also from the head offices.
